Filing Date: October 19, 1998
Title: CHROMIUM(IV)-FREE CONVERSION LAYER AND METHOD FOR PRODUCING IT
Docket No. 31716

VERIFIED STATEMENT CLAIMING SMALL ENTITY STATUS

I hereby declare that I am an officer of the concern identified below and am empowered to act on its behalf.

The concern qualifies as a small business concern as defined in 37 C.F.R. § 1.9 for purposes of paying reduced fees, in that the number of employees thereof, including those of its affiliates, does not exceed 500 persons.

The exclusive rights to the invention described and claimed in the above-identified application have been conveyed to and remain with the concern, or if the rights are not exclusive, all other rights belong to small entities as defined in 37 C.F.R. § 1.9.

I acknowledge the duty to file, in this application, notification of any change in status resulting in loss of entitlement to small entity status prior to paying, or at the time of paying, the earliest of the issue fee or any maintenance fee due after the date on which status as a small entity is no longer appropriate.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

ASSIGNMENT

WHEREAS, Patricia Prellschat, Rolf Jansen, and Peter Hulser, citizens of the Federal Republic of Germany, all residing at Untergasse 47, 65468 Trebur, Bundesrepublik Deutschland, Assignors, have invented now and useful CHROMIUM(VI)-FREE CONVERSION LAYER AND METHOD FOR PRODUCING IT, for which an application for United States Letters Patent was executed by them on or about the same date as this Assignment; and

WHEREAS, Assignors believe themselves to be the original, first and sole inventors of the invention disclosed and claimed in the application for Letters Patent; and

WHEREAS, SurTec Produkte und System für die Oberflächbehandlung GmbH, a for profit organization chartered under the laws of the Federal Republic of Germany, having a principal place of operation at Untergasse 47, DE 65468 Trebur, Federal Republic of Germany, Assignee, desires to acquire by formal, recordable assignment the entire right, title and interest in and to the invention, the application, and any Letters Patent that might be granted for the invention in the United States and throughout the world;

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign and transfer to Assignee, the entire right, title and interest in and to the invention, the application, and any Letters Patent that might be granted for the invention in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignor, they and their legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing or enforcing Letters Patent in the United States and throughout the world for the invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to the invention, the application, and any Letters Patent granted for the invention in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for the invention, whether on the application or on any subsequently filed division, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in the invention.

Assignors further authorize and request insertion below of the serial number and filing date of the application, when officially known:
